| Tilapia | | | | | | ✓ | | | ✓ | | | ✓ | |
| Cod (Pending) | | ✓ | | | | | | | ✓ | | | | |

* for the **Finfish scopes** an auditor might need training for both cages and landbased, or only one of them, depending on the CABs client base and their production system.

Example: I am a Tilapia auditor and only audit tilapia in cages, I need to take the Cages, Finfish training.
